

Featuring the new generation C5000 electronics, Compac's Comfill is the ideal solution for "Back to Base" refuelling.

The heart of the Compac Comfill is the bulk meter register.

The Comfill uses Compac's C5000 electronics for a number of functions, all of which make it particularly suited for use in "Back to Base" refuelling.

Features

- Easy to setup

Fuel Management with CompacOnsite

CompacOnsite is the ideal solution for remote management of data.

From any web browser, you have access to all your site data, 24/7.

Main Features of CompacOnsite

- **Manage Customer Account Cards** - view transactions, validate or invalidate cards, update user details
- **View Transactions**
- **Tank Gauging** - monitor tank levels, temperature, safe fill level and other important information. Virtual Tank Gauging also available
- **Reporting** - export information in CSV format

Advantages of CompacOnsite

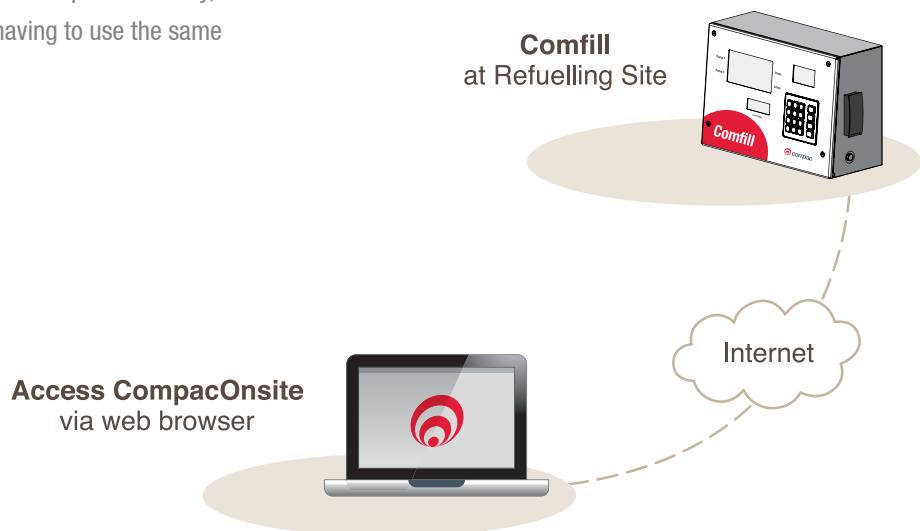

- **Remote Access** - allows you to manage your site 24/7, from anywhere with internet access
- **User-Friendly** - very little training is required to use CompacOnsite
- **No Software Hassles** - no software to install or maintain, saves you time and computer memory, and you are not limited to having to use the same computer everytime

Security is our Priority

- All data is stored in the Comfill at your site
- Access is only over SSL (HTTPS) with login and password

How much does it cost?

There are no fees associated with the use of CompacOnsite. For additional functionality, upgrading to CompacOnline is required (where monthly charges apply).
