

# CompacOnline

## For reliable and secure fuel management - anytime, anywhere

### What is CompacOnline?

CompacOnline is a secure, web based fuel management system, useful for any size business. Whether you need to manage 1 or 100 pumps, we can help you to do so with ease.

CompacOnline is run through the internet, allowing you the flexibility to view petrol pump transactions and control a number of onsite events from almost anywhere in the world, at any time of the day or night.

### Main Features

- Manage Customer Account Cards - keep track who is using your cards and the number of transactions made by each card
- Adjust Pump Pricing - select the price you want and when you want this to change
- View Transactions - including Credit card, 'White' card and Eftpos transactions
- Tank Gauging - monitor tank levels, temperature, safe fill level and other important information
- Run Reports - export information from CompacOnline in PDF or Excel format

### Advantages of CompacOnline

- Remote Access - allows you to manage your site 24/7, from anywhere with internet access
- User-Friendly - very little skill or training required to use CompacOnline
- No Software Hassles - no software to install or maintain, saves you time and computer memory, and you are not limited to having to use the same computer everytime
- Keeps Your Data Safe - no need to worry about your computer crashing and losing data as everything is stored on a secure server and backed up
- Secure - access only over SSL (HTTPS) with logon & password, required to be changed every 35 days

# CompacOnline

## Security is our priority

- All data is stored in our secure data centre
- Access is only over SSL (HTTPS) with logon and password
- Strong passwords are used, and required to be changed every 35 days
- A Roll matrix is used to limit functionality for particular users, for example set price cannot be changed by an unauthorised person

## Can my existing Compac equipment connect to CompacOnline?

Yes, interfaces and upgrades are available for the Compac Central Controller, Communicator Controller, OPT, DCA and Futra through:

- ADSL broadband
- 3G Wireless broadband
- Satellite broadband
- Through your local area network

## How much does it cost?

CompacOnline has low monthly running fees, and a one-off set up charge. For further information on pricing and features specific to your business requirements, please talk to your local Compac representative.
