

# Compac Communicator

The Compac Communicator is the ideal solution for sites with multiple pumps, with distances of up to 100 metres between each other. The Communicator has the ability to connect up to 32 Compac hoses, and connects to CompacOnline through either ADSL, 3G or TCP/IP. It allows you fuel access at the pump 24 hours a day, through the use of a Card, CWID key or HID, and is best suited for installation inside a building.

## The Compac Communicator:

- Stores valid Card/Key/Tag Numbers
- Stores valid Driver/Vehicle ID numbers
- Stores PIN Numbers
- Stores Transactions
- Prints reports and/or exports the data to CompacOnline
- Holds site set up and pricing details
