

# **Compac AdBlue<sup>®</sup> Dispenser**

All the benefits of a Compac Dispenser designed to distribute the unique AdBlue<sup>®</sup> solution.

Choose Compac's Master model for commercial requirements. Compac's Laser model is ideal for forecourt/retail requirements.

Compac's AdBlue® dispenser comes with all the benefits of a Compac dispenser and features Compac's highly accurate V50 Coriolis Mass Flow Meter, along with corrosive resistant components to handle the unique nature of AdBlue®.

The design of Compac's AdBlue® dispenser is based on Compac's many years of experience custom designing and manufacturing equipment for a range of fuels in NZ, Australia and International markets.

A major feature of the AdBlue® dispenser is the use of Compac's V50 Coriolis Mass Flow Meter. The meter is made from high grade stainless steel and has no moving parts. No maintenance is required and there is no calibration drift with time. **The V50 meter is highly accurate and comes with NMI approvals** allowing it to be used on retail and commercial sites that sell to the public.

Stainless steel components have also been used throughout the dispenser, along with with corrosive resistant components, piping and seals to handle this unique additive. All models are compatible with Compac Fuel Management Systems.

Model	Dispenser	Hose	Product	Flow Rate	FMS Capatible	Overall Height (incl Himast)
MA30S	✓	1	1 (AdBlue®)	30lpm	✓	2064mm
MMA30S	✓	2	1 (AdBlue®)	30lpm	✓	2064mm
LLA30S	✓	2	1 (AdBlue®)	30lpm	✓	2447mm
MMA30/80S	✓	2	2 (AdBlue®, Diesel)	30lpm/80lpm	✓	2064mm
MMA30/160S	✓	2	2 (AdBlue®, Diesel)	30lpm/160lpm	✓	2064mm

**Approvals.** Compac Dispensers have received certification and approvals in many different countries. Copies of these are available on our website.
