

Compac Card King

The Compac Card King unit is designed as a multi-purpose authorisation and fuel management station.

- Suited to both retail and commercial applications
- Single and dual hose options
- Multi product fuel options
- Fuel management options using CompacOnline or USB stick

Quick and easy to install the Card King is an excellent cost and time-efficient choice.

With options in authorisation and data management the Card King is suitable for any site where unattended refuelling is a priority.
